Property Description

This 550 m2 property land in Rooi Santo has no restrictions. Conveniently located close to the super market and the Aruba Raquet Club. Very close to Tierra del Sol, high rise hotels and beaches. Two beautiful houses are built on each side of the property. This is the only property in that area that has no restrictions and you can build a second floor. Paying this price is well worth it. It won't be long on the market.
